UX Designer | UX Researcher | Architect

UX Designer and Researcher focused on building intuitive, scalable digital experiences across web and mobile platforms. Experienced in end-to-end product design from research and strategy to interaction design and high-fidelity execution. Passionate about translating complex systems into clear, human-centered solutions that balance business goals, technical feasibility, and emotional engagement. Seeking Summer/Fall 2026 internship opportunities.

Work Experience

User Experience Lead — *Sept'2025 - Nov'2025*

Kohler x SCADpro — *Savannah, GA*

Led end-to-end UX design and prototyping for a connected product ecosystem integrating digital and physical experiences. Translated UX concepts into interactive prototypes to evaluate usability and feasibility. Defined structured interaction flows, built high-fidelity UI systems in Figma, and collaborated closely with engineering to ensure implementation alignment. Presented research insights and product ideas to stakeholders and senior leadership.

User Experience Designer — *Jun'2025 - Present*

7WEST, Inc. — *Remote*

Designed and prototyped mobile workflows for an all-in-one student ecosystem platform. Built reusable UI components and maintained a structured design system in Figma. Designed screens across onboarding, discovery, and engagement features, balancing usability, visual hierarchy, and scalability. Collaborated with engineering team to translate UX ideas into production-ready experiences.

Architectural Intern — *Jun'2022 - Dec'2022*

BetweenSpaces Architects — *Bangalore, India*

Worked on architectural drawings, 3D modeling, and spatial visualization. Contributed to design development and client presentations, strengthening systematic thinking and multi-scale problem solving.

Visual Designer — *Apr'2021 - Oct'2021*

FinUp NGO — *Hyderabad, India*

Conducted community research and interviews to understand barriers to financial literacy. Designed user-centered visuals to simplify complex information for diverse audiences. Applied strong typography, layout systems, and visual hierarchy to improve clarity and accessibility.

Projects

SONIX - Autonomous Taxi Experience - Rookie of the Year - Highly Commended | Finalist — *Jan'2025 - Mar'2025*

Conducted qualitative and quantitative UX research including 15+ usability sessions to identify adoption barriers in autonomous vehicle systems. Designed mobile and car interaction flows, UI elements, and responsive visual interfaces to improve clarity, trust, and customer journey performance. Iterated designs based on testing feedback and performance evaluation.

Sealove Candle Bar - Website Redesign - IDA 2025 Honorable Mention — *Mar'2025 - May'2025*

Redesigned the website using user research and card sorting/tree testing tools to refine the information architecture. Iterated through usability testing to create a seamless booking and shopping experience that reflects the brand's in-store essence and increases user retention.

iMessage Wellness Update — *Sept'2025 - Nov'2025*

Led exploratory user research to understand relational communication behaviors. Conducted interviews and affinity mapping to uncover behavioral themes and opportunities for product enhancement.

Legacy - Designing for Life Transitions — *Sept'2023 - Nov'2023*

Conducted user research to understand challenges in post-death financial planning for the Stanford Longevity Design Challenge. Designed a supportive hybrid solution to help families navigate legal and asset-related processes.

Education

M.F.A in User Experience Design | GPA 4.0 — *2024 - Present*

Savannah College of Art and Design — *Savannah, GA, USA*

Bachelor of Architecture - Rank 4th — *2019 - 2024*

School of Planning and Architecture — *Vijayawada, India*

Skills

Design & Experience: User-Centered Design, Interaction Design, Information Architecture, User Flows, Wireframing, Prototyping, Design Systems, Responsive Design, Accessibility, Visual Hierarchy, Grid Systems, Typography, Color Systems

Research & Strategy: Qualitative Research, Interviews, Usability Testing, Journey Mapping, Thematic Analysis, Survey Design, Hypothesis Formation, Affinity Mapping, Insight Synthesis.

Tools & Technologies: Figma, Lyssna, Adobe Creative Suite, AutoCAD, Revit, Sketchup, Rhino, Lumion, Enscape, Vray, Twinmotion.

Programming: HTML, CSS, Java, JavaScript.
